

# **Dr. HILDY'S™ BACI MI™ MEGA MANGO SYSTEM**

*Scientifically Researched and Developed*

**by Dr. Hildegard Staninger™, RIET-1**

**Industrial Toxicologist/IH and Doctor of Integrative Medicine**

© September 27, 2011

**Dr. Hildy's™ Baci Mi™ Mega Mango System** is designed for both males and females, who are just plain tired of trying to lose weight and increase their metabolic rates without any success. The program is designed to specifically address chemicals, pesticides and other hazardous materials that are known to interfere with cellular metabolism (as associated with mitochondrial DNA Expression), which basically means that one stores fat and has a hard time breaking down hard malformed fat. There are a number of toxic substances that pass through the cells cellular and nuclear membranes which will affect the cell's organelles, mainly the mitochondria. The mitochondria are the power houses of the cell. They are used to store energy for many metabolic processes within the cell matrix, muscles and other organ systems.

A prime example of a chemical that interferes with cellular metabolism is **ARSENIC**. It is a known chemical toxin and poison since antiquity. It is now found in our food, environment, soil, lakes and drinking water. Arsenic loves the mitochondria and enjoys migrating to its storage areas within the cell. As it moves through the mitochondria and its surrounding area, it can react with the cellular detoxification mechanisms and create the out-gassing of more toxic substances via the cell membrane creating carbon monoxide, carbon dioxide and other gases such as arsine. This type of situation causes the cells to release the gases, which in turn stimulates the liver to produce cholesterol and triglycerides to encapsulate the arsenic or other toxic substances. Simultaneously, the brain will signal the cells to store it in a particular area of the body, such as the intestinal outer membranes and under the skin of the body. If the skin stores it and you go outside and work in the sun's rays, the UV-light will react with the arsenic in the cell and make the cell form pre-cancerous cells. It is known throughout industrial toxicological literature that **ARSENIC + SUN (UV rays) = SKIN CANCER**. Arsenic's storage and complex metabolic mechanisms within the mitochondria may be the very reason, we see so many cases of skin melanoma in our societies today and throughout the world. This may be especially true for industrialized countries that use arsenic in its many use formats, since antiquity.

**Dr. Hildy's™ Baci Mi™ Mega Mango System** addresses environmental, home and work place exposures to metabolic toxins. These toxins can cause systemic toxicological metabolic disorders, cause one to store body fat, make hard fat and not be able to break down the fat molecules as a result of various types of hazardous materials found stored in your body. The body stores these toxic substances like food for a "rainy day." It has been found that the more an individual stimulates the survival gene there will be less metabolic activities on fat molecules. The older your ancient gene alleles are the greater risk for your *survival gene* to express itself in these unique environmental times. Remember that your "RAINY DAY" has finally come and it is your body's time to release ALL toxins (physically and emotionally), so you may have a beautiful life free of toxins and diseases.

The **Dr. Hildy's™ Baci Mi™ Mega Mango System** is scientifically proven to increase metabolism, release stored toxins as it binds them and allow the body to break down stored hard fat. This is a **GOLDEN OPPORTUNITY**, just like a One, Two – Three Punch method for 30 days. It will increase **metabolism, break down hard Fat as YOU will LOOK more BEAUTIFUL from the inside out**. It is now the Time to Talk the Talk; Look the Look and Walk the Walk. **Dr. Hildy's™ Baci Mi™ Mega Mango Opportunity** is very SIMPLE and HIGHLY COST EFFECTIVE, as you will experience in the long run of life's many choices.

Listed below are the products recommended by Dr. Hildy™. Some of them are formulated with Wild Crafted Herbs, Whole Natural Functional Foods, all are **RAMAN CERTIFIED** and as organically "Certified Organic" as possible, since even **Dr. Hildy's™ Baci Mi's™ Chicken Little Plus** never knows when the sky will fall with particulate matter. NOW is the time to give your body the ultimate I, II and III PUNCH to enhance your metabolic system.

## **I. DIETARY NUTRITIONAL SUPPLEMENTS by BACI MI™ and IHS BIOETHNO MEDICINAL BOTANICALS of ANTIQUITY™, Vegan Capsules (take as directed below)**

**BACI MAN** – 2 capsules Morning and Evening.

**Ingredients:** Jerusalem Artichoke Powder, Okra, Nasturtium, Mango and Hungarian Paprika

**PURE GOLDEN MANGO** – 2 capsules Lunch and Dinner.

**Ingredients:** the purest South American Golden Mango

**ETERNAL BEAUTY** – 4 capsules at Bed Time.

**Ingredients:** IHS HT Botanicals of Antiquity Blend\*, Jerusalem Artichoke Powder, Okra, Maple Sugar and Baking Soda

**Note:** \* Chamomile Leaf, Marshmallow, Orange Peel, Milk Thistle, *Cassia angustifolia* Leaf, Dandelion, Spearmint Leaf, Cinnamon Bark, Pure Plantago Husk, Licorice Root, Japanese Honey Suckle Leaf and Papaya Leaf.

**Dr. Hildy™** further suggests, when one needs additional trace mineral support use mango grown in rich nutrient soils by substitute **Baci Mi's™ Pure Golden Mango** with **African Red Tea Imports® African Mango Seeds Pure Powder** dietary supplement capsules. And if you have *super hard fat molecules* within your lower belly area, add to this system the **Baci Mi™ Quetzal Blend**, because it aids the body in AD1PoQ Gene Expression and RNA acid reduction which is known to be associated with exposures to toxic substances and other similar materials.

## **II. FOOT BATHS, BATHS & SHOWER SOLUTION**

**Foot Bath** – 1 capful of Baci Man's "JUST LOOK AT YOU" Foot, Bath and Shower solution with 1 scoop of Opaline™ Wound and Detox Granules. Do this daily.

**Bath** – 2 capfuls of Baci Man's "JUST LOOK AT YOU" Foot, Bath and Shower solution with 2

scoops of Opaline™ Wound and Detox Granules. Do this daily.

**Shower** – spray on the Baci Man’s “**JUST LOOK AT YOU**” Foot, Bath and Shower Solution over your body. Let it absorb 2 minutes (120 seconds), then shower as you normally would.

### III. BODY GEL

Rub **Baci Mi’s™** “**JUST LOOK AT YOU**” gel to increase metabolism over your face, body and legs. It accelerates detoxification mechanisms of the lymphatic system to releases toxins deep within its mitochondrial (mt) DNA. These toxins hinder our mitochondria from stimulating enzymes and proteins, which allows the DNA to express its true-self. **DO NOT FORGET** to rub the gel on extra problem areas where fat, cellulite (malformed fat) or even cysts have formed. They are the results of a life time of accumulated toxic residues within the cellular matrix and target organ systems. You may feel it actually enhance circulation and “area cellular metabolism” in about 20 minutes after application.

The cells that formed the **Gastro Intestinal Tract** (mouth to anus) have been accumulating toxins, parasites and other debris within itself, since the time of your conception. It is the first organ system formed in the human body by the developing embryo. And when you really want to do a “*spring cleaning*” of this organ system, **Dr. Hildy™** and **Baci Mi™** **Baci Man** recommend their favorite **100% Natural Herbal Drink - HAPPY TUMMY™** by Veggie Family USA, Inc. It ranks right up there with **Baci Mi’s™** **Eternal Beauty** formula. HAPPY TUMMY™ is a 100% Natural Herbal Drink (take 1 to 2 teaspoons/12 ounce glass) with Integrative Health Systems™ very own Jerusalem Artichoke Powder (JAP) (take 1 to 2 teaspoons/12 ounce glass). These products may be added to your favorite water, juice or smoothie. The two products are known for their continual support of the small intestine, colon and allowing the enhancement of your intestinal flora as a natural pre and probiotic food (JAP). They are an instant “YES” to your many choices in life, when you want to support the GI Tract and your body’s very own metabolic processes one cell at a time.
